

*An elevator attendant
in your pocket.*

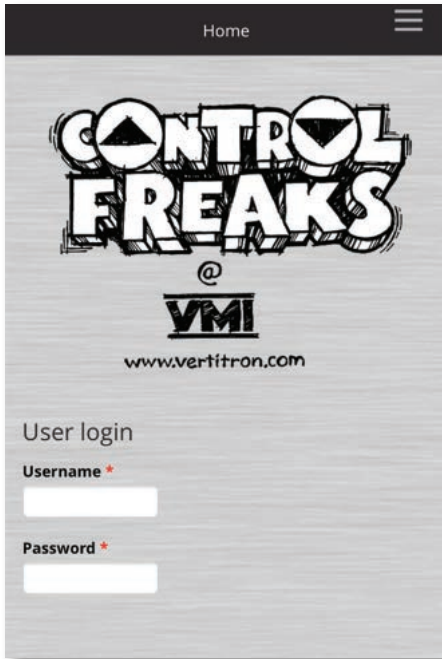

Remote Elevator Control

APPELLO+ allows building operators and owners to call elevator cars on demand from remote locations using mobile devices and PCs. The system is economical to install and easy to use.

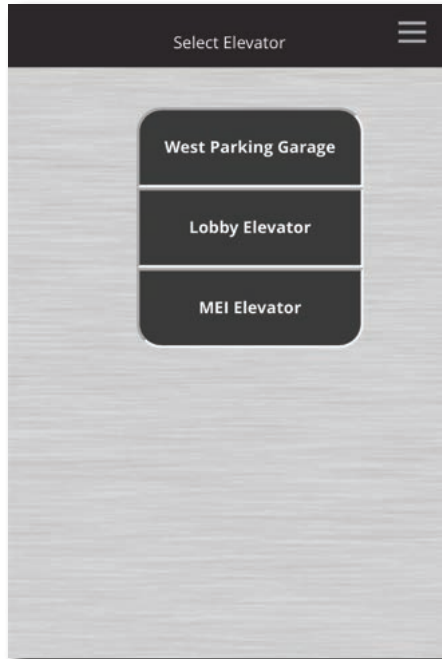

- + Call specific elevators to specific floors on demand
- + Open, close and hold doors with or without timers
- + Link to building automation systems
- + View elevator's current position and if loaded or empty
- + User permission management
- + For iOS, Android, Windows, Mac and smart devices

IDEAL FOR

- + VIPs
- + Luxury Residential
- + Building Supervisors
- + Vehicle Lifts
- + Forklift and Delivery Drivers
